

BELLTEC™ AUGER SOLUTIONS

EXCEPTIONAL QUALITY, EARTH-SHATTERING PERFORMANCE

Belltec offers the most comprehensive line of high-performance augers on the market to maximize your performance drilling in any condition. Additionally, each Belltec auger is standard-built with first-rate components that add quality and value such as a premium A500 structural steel stem, top-to-bottom heavy-duty flighting, and consumables made with premium heat-treated alloy steel. Belltec augers also feature our patented AugerGuard™ Coupler, which reinforces the weak point in typical auger designs.

DCA-SERIES

DCA-Series Auger are a cost-effective solution for drilling in displaceable soils like sand, silt, or clay. DCA augers feature a hardened cast boring with to withstand the demands of repeated use.

- Bolt-on tooth design for a secure fit
- Options available in diameters from 4.5-in to 36-in
- Available in 48-in or 54-in overall lengths
- Available in semi-double or double flight designs
- Built with 5/16-in flighting and a 3.5-in diameter pilot

SDA-SERIES

SDA-Series Augers are reliable, all-around tools for routine drilling in displaceable soils and fractured rock. The improved boring head design and hefty 4.5-inch diameter pilot offer enhanced long-term performance and durability.

- Drive-in tooth design for quick servicing
- Options from 4.5-in to 36-in in overall diameter
- Available in 48-in or 54-in overall lengths
- Available in single or double flight
- Custom auger solutions are available

BHD-SERIES

SDA-Series Auger are reliable, all-around tools routine drilling in displaceable soils and fractured rock. The improved boring head design and hefty 4.5-inch pilot offer enhanced long-term performance and durability.

- Drive-in tooth design for quick servicing
- Options available in diameters from 4.5 to 36 inches
- Available in 48-in or 54-in overall lengths
- Available in single or double flight designs
- Built with 5/16-in flighting

BULLET SERIES

Bullet Series Augers are specialized at cutting through tough cobble, boulders, fractured, or solid rock. The advanced, rock-crushing boring head design utilizes C1HD Plus™ Bullet Teeth arranged at optimal cutting angles.

- Outfitted with C1HD Plus™ Bullet Teeth
- Convenient wear indicator strips on boring head*
- Reinforced 3/4-in boring head flight*
- Options available in diameters from 4.5 to 36 inches
- Built with 5/16-in flighting and a 5-in diameter pilot

SPIRAL SERIES

Spiral Series Augers will increase your productivity when you face hard ground. Its earth-grinding conical design and aggressive arrangement of C1HD Plus™ Bullet Teeth will pulverize concrete, fracturable, and solid rock.

- Ultra-performance, hand-laid boring head
- Continuous Stooddy 121-G hardfacing
- Continuous 5/8-in thick flighting
- Options available in diameters from 9 to 36 inches
- Built with 5-in diameter pilot

SPECIALTY

Tree and Shrub Augers - A variant of DCA-Series Augers, Belltec Tree and Shrub Augers are a cost-effective solution for mechanically digging holes to plant trees or shrubs. Options are available in diameters from 18 to 48 inches.

Belltec Puff Augers - Belltec Puff Augers are specially designed to bore holes into hard ground for installing T-posts. Belltec Puff Augers feature a 1-5/8 inch solid steel shaft and a replaceable 2-in carbide head that efficiently cuts through hard dirt and rock.

Custom Auger Solutions - For custom auger designs, call 1-800-242-9410 or email sales@belltec.net to contact a Belltec representative.
